Implications of Operating a Franchised Business

In making this application I understand and have considered the following aspects of operating a franchised business (please tick whichever is applicable)

Operating a franchise requires the franchisee to comply with the franchisors system and way of doing business.

In the course of operating a franchise I will be provided some confidential information which I must keep confidential even after the franchise ends...

In considering the Bobaboba franchise opportunity, it is my responsibility to develop my own view regarding the financial potential of the proposed franchised business.

Nobody, including Bobaboba can predict the outcome of a business venture and that any venture has a risk of failure.

Bobaboba has advised me to obtain independent legal, accounting and business advice regarding the Bobaboba franchise opportunity and that not doing so may expose me to an increased level of risk or leave me unaware of some material aspect of the Bobaboba franchise system.

Operating a franchised business places certain demands upon the franchisee and their families and having their support is critical to my potential for success.
